### DETAILED ACTION

This Office action is in response to the communication filed July 14, 2003, Paper No. 8.

Claims 16-23 are pending in the instant application.

Any rejections not repeated in this Office action are hereby withdrawn.

#### *Response to Arguments and Amendments*

The amendment to the specification on pages 6 through 28, filed July 14, 2003 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The delineation of 3'-substituted nucleosides regarding 6th, 7th, 8th, 9th or 10th nucleosides 3' to the CpG dinucleotides has not been disclosed in the original specification or in the original claims, and these newly added limitations constitute new matter.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claims 16-23 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The amended claims 16-23, filed July 14, 2003, introduce new matter into the disclosure. The added material which is not supported by the original disclosure is as follows: The delineation

of 3'-substituted nucleosides regarding 6th, 7th, 8th, 9th or 10th nucleosides 3' to the CpG dinucleotides has not been disclosed in the original specification or in the original claims, and these newly added limitations constitute new matter.

***Allowable Subject Matter***

Originally filed claims 16-23 appear free of the prior art of record.

These claims have been amended in the amendment filed July 14, 2003, and these amended claims 16-23 contain new matter as indicated above.

Consequently, no claims are allowed.
